2   General Comments

The Ultra Wide Band (UWB) Alliance is a global not-for-profit organization that works to collectively establish ultra-wideband (UWB) technology as an open-standards industry. A coalition made up of vendors that either design, manufacture, or sell products that use ultra-wideband technology, the UWB Alliance aims to promote and protect the current allocation of bandwidth as well as promote the continuing globalization of the technology. As part of our mission, we advocate UWB technology and use cases to promote verticals showing the value of UWB for IoT and Industry 4.0 and to build a global ecosystem across the complete UWB value chain, from the silicon to the service.
After having participated in the supporting studies in ECC Report 327, the Ultra Wide Band Alliance is pleased to be able to comment on the draft CEPT Report 084.
The fact that Europe is updating its regulatory framework in response to demands from industry is helping European UWB manufacturers to keep their leading position in the world. The UWB Alliance endorsed the measures included in the updated ECC Decision (06)04 and fully supports their inclusion in an updated EC Decision on ultra-wideband.

3   Proposals related to the ECC Deliverables

Note: Contributors shall use the following table to provide comments. It is also encouraged to provide as an annex a separate document showing the proposals with track changes. Minor editorial corrections do not need to be recorded in the table. The table is used in the resolution meeting to record how each proposal is addressed.

The following information must be included.
- **Comment number**: Sequential numbering of comments in the format "XX/1", "XX/2" etc, where "XX" is the organisation name or a suitable abbreviation. Administrations may use CEPT country codes
- **Section number/Clause**: Relevant section number of the deliverable, use numbers where applicable e.g. "1.1", "A1.4", "List of abbreviations"
- **Paragraph/Figure/Table**: Paragraph number in section, e.g. "1","2".. or Figure/Table, e.g. "Figure 1", "Table 2"
- **Type of comment**: "General", "Technical" or "Editorial" depending on the nature of the proposed changes
- **Comment**: Background/justification for proposed changes

- **Proposed change**: Proposed modifications shown in revision marks where possible. For more complicated changes (e.g. proposed deletion/addition of whole sections) or changes to tables it is sufficient to refer to the annex including the changes
